Problem Identification

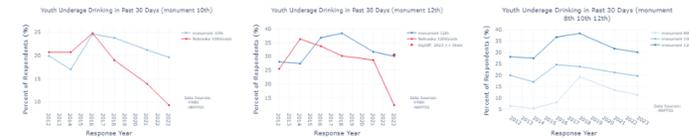

Review the figures below to determine if this is a problem in your area. When possible, compare your community's data to the state average and look for trends over time. Triangle symbols (▲) indicate statistically significant differences - meaning we are confident the difference between your area and the state, or the change over time, is real, not just due to chance. Click any figure to expand it for a better view and hover your mouse to see details.

Underage Drinking ✓ Binge Drinking ✗ Marijuana ✗ Tobacco ✗ Vaping ✗ Opioids and Illicit Substances ✗

Youth underage drinking in past 30 days

Based on your assessment of this data, is this a problem to address in your area?

Yes No
